EXACT SPOKEN SCRIPT

Assalam-o-Alaikum, this is **LeakShield Pro**, a completely free and open-source cybersecurity platform. Aaj security tools ko afford aur samajhna difficult hota hai, isi liye humne LeakShield Pro banaya. User apni authorized website URL, code, configuration, ya project folder provide karta hai. Platform security headers, SSL, DNS, technologies, exposed files aur potential secret leaks safely analyze karta hai. Har finding exact affected URL ya file location, redacted evidence, risk level, business impact aur step-by-step fix show karti hai, so developer ko problem ka reason aur solution dono samajh aate hain. Ye passive checks use karta hai, exploit attacks nahi karta, aur Shodan ya paid API require nahi karta. Future mein authenticated testing, team collaboration, GitHub integration aur continuous monitoring add ki jayegi. LeakShield Pro ka mission hai: **enterprise-quality cybersecurity, completely free for everyone.**

DELIVERY NOTES

Cue	Direction
PACE	Speak clearly at a natural pace. The narration is 132 words.
PROOF	Point at the exact affected URL and redacted evidence while describing findings.
SAFETY	Use a team-owned target. Never expose a real API key or admin password.
ENDING	Finish on the logo and hold the final mission statement for one second.
